

MOTOMETER

RPM x 1000

Four indicator lights are arranged in a 2x2 grid. The top-left light is red and has a low oil pressure symbol (oil can with a drop) to its left. The top-right light is red and has a battery symbol to its right. The bottom-left light is yellow and has a low voltage symbol (light bulb with a drop) to its left. The bottom-right light is dark red and has a water level symbol (water with a rising line) to its right.
